Saroj Kumar Das

MERN Stack Developer with hands-on experience building full-stack web applications using React, Node.js, Express.js, and MongoDB. Skilled in developing secure authentication systems, REST APIs, real-time applications with Socket.IO, and responsive user interfaces using Redux Toolkit and Tailwind CSS. Passionate about writing clean, maintainable code and continuously improving through personal projects, DSA, and modern web technologies.

WORK EXPERIENCE

Infotact Solutions

Web Development Intern — Jun 2025 - Aug 2025

- Contributed to production-level web applications including **DesiEsty** (handmade products marketplace) and **HomeCook Food** (food delivery platform).
- Developed **authentication flows, protected routes, and reusable UI components** using **React.js, Redux Toolkit, and Tailwind CSS**.
- Integrated backend APIs using **Node.js, Express, and MongoDB** for **user management, product handling, and data flow**.
- Followed **clean architecture principles** and collaborated with team members to improve **performance and maintainability**.

PROJECTS

HireLens — Role-Based Applicant Tracking System

- Built a full-stack **Applicant Tracking System (ATS)** with role-based hiring workflows for Admins, Recruiters, and Interviewers.
- Developed secure **JWT authentication (httpOnly cookies)**, RBAC, refresh tokens, team invitations, and OTP email verification with **Brevo**.
- Integrated **Socket.IO** for real-time candidate updates, interview notifications, and activity tracking.
- Built responsive **Kanban dashboards** with drag-and-drop workflows and interview scheduling using **React, Redux Toolkit, and Tailwind CSS**.
- Developed hiring analytics using **MongoDB aggregation**, secure resume uploads with **Cloudinary**, API rate limiting, and **NoSQL injection** protection.

TaskForge — Real-Time Collaborative Task Management App

- Built a full-stack collaborative task management platform with **role-based access** for teams, tasks, and subtasks.
- Developed secure **JWT authentication (httpOnly cookies)**, API rate limiting, and optimistic concurrency control.
- Integrated **Socket.IO** for real-time task synchronization, Kanban updates, activity logs, and live collaboration.
- Built a responsive **Kanban interface** with drag-and-drop, global search, dark mode, and adaptive navigation using **React, Redux Toolkit, Tailwind CSS, and dnd-kit**.
- Managed state with **Redux Toolkit** and implemented **Smart Assign**, optimistic UI updates, Cloudinary attachments, and paginated data fetching.

SKILLS

- **Frontend:** React.js, Redux Toolkit, JavaScript (ES6+), HTML5, CSS3
- **Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication
- **Database:** MongoDB, Mongoose
- **Real-Time:** Socket.IO
- **Tools:** Git, GitHub, Postman, Vercel, Render, Cloudinary

EDUCATION

GIIT Professional College

Bachelor of Computer Applications (BCA) — Jul 2023 - Present

- Coursework: Object-Oriented Programming, Operating Systems, Software Engineering, Database Management Systems
